INTERNATIONAL SAMPLE SUBMITTAL BASIC INSTRUCTIONS

SOIL PERMIT N^o: P330-16-00101 Expires: 03/28/2019

Valid for shipments of soil not heat-treated at the port of entry. **A copy of this permit must accompany all shipments.**

Soil Samples must be **less than ½ Kilogram per sample, thoroughly dried** and shipped in sturdy, **leak-proof containers and double-bagged**. Damp samples may be placed on plates with a fan blowing on them to speed-up drying. **Do not apply heat** to samples as heat can alter soil chemistry. **See detailed instructions** for sampling and sample preparation on a link titled, **HOW TO TAKE A SOIL SAMPLE** under **Soil Testing** at www.TexasPlantAndSoilLab.com. **Ship sample bags in sturdy containers. If plastic bags are used, thoroughly tape around them to prevent opening or bursting while they are in transit.**

Please identify each sample and show the **sample interval** with a permanent marker on the outside of the bags. The **sample interval** for most crops is from the surface to 30 cm. If subsoils are required, sample in 30 cm increments (30 - 60, 60 - 90 and 90 - 120 cm). Note that required subsoil depth can vary with crop.

Provide a **history** of crops, fertilizers, results and **problems, Crops To Be Grown**, yield goals desired, **Fertilization Practice** (Conventional - Sustainable – Organic), **Irrigation Method** - (dryland, furrow, sprinkler, drip, center pivot, etc.) and **tests desired** (see our Fee Schedule for test numbers and descriptions) are **required**.

This information is critical for accurate analysis, interpretations and recommendations.

SOILS – One of more of the PPQ-550 labels must be affixed to the outside of shipping container.

PLANT PERMIT N^o: P588-120924-001 Expires: Indefinite

All plant sap/leaf stem (petiole) and leaf samples are to be **washed and dried**, either in an oven at 40°C for 8 hours, or in direct sunlight [maybe on a vehicle's dash board] and placed in plain, **unlined** paper bags. Please follow TP&S's sampling procedure on our information sheet labeled **LEAF/PETIOLE (STEM) SAMPLING**. There may be more specific instructions for certain plants. See www.AskThePlant.com for instructions and forms.

Minimum dry weight per sample required for analysis is **three grams** and is limited to **10 grams per sample, with no more than 10 samples per shipment**. If more than 10 samples need to be shipped, place several samples in their individual bags into a single bag and call it a single composite sample. **If samples still have moisture when examined at the Plant Inspection Station, they will be destroyed by the inspector**, so make sure all samples are thoroughly dried and have no moisture.

SHIPPING INSTRUCTIONS:

Place samples in a sturdy box and ship directly to us via a bonded carrier (**DHL, UPS, Federal Express, etc.**). **DHL is the preferred carrier**. When shipping, have a copy of our permits attached to the outside of the box for review by USDA inspectors. Permits may be downloaded and printed from our websites. **A copy must be included, per Soils, above.**

Send samples to:

**Texas Plant and Soil Laboratory
Attn: Noel Garcia, CCA
4915 West Monte Cristo Road
Edinburg, Texas 78541
U.S.A.**

Please **Call (956) 383-0739, Fax (956) 383-0730** or **E-mail ngarcia@tpsl.biz** and advise him of the manifest number and expected date of arrival.

SEE ADDITIONAL USDA INSTRUCTIONS ACCOMPANYING EITHER FORM.

Re: P588-120924-001

Noel Garcia
Texas Plant & Soil Laboratory
4915 W. Monte Cristo Road
Edinburg, Texas 78541

Dear Noel Garcia:

This letter is in response to your recent request and will act as your authorization to import various types of plant material not prohibited in accordance with 7 CFR319 for analysis and production purposes. This would include desiccated, processed, chemically stabilized (i.e. lyophilized tissue), and frozen plant material. This authorization does not include the importation of fresh plant material capable of propagation. For reference the following url is a link to the Code of Federal Regulations (CFR) Title 7: Agriculture Part 319--Foreign Quarantine Notices. Please have a copy of this letter accompany the shipment when it arrives in the United States. http://www.access.gpo.gov/nara/cfr/waisidx_08/7cfr319_08.html

Upon arrival in the United States, the plant materials will be subject to inspection by representatives of Customs and Border Protection, Agriculture Quarantine Inspection (CBP, AQI). A CBP-AQI representative will examine the samples and if they are found to be free from exotic pests, diseases, noxious weeds, soil, and other prohibited matter will be released to you.

Please contact us at Area Code (301) 734-8645 if you have any questions concerning this authorization.

Sincerely,

Karen Brady

NOTICE OF ARRIVAL

INSTRUCTIONS: Immediately upon arrival, the permittee or his agent should prepare original and one copy of this form. Submit copies to the Plant Protection and Quarantine office having jurisdiction over the port of arrival.	1. NAME OF CARRIER
3. NAME OF PERMITEE/CONSIGNEE	2. DATE OF ARRIVAL
	4. PORT OF ARRIVAL
	5. PERMIT NO.
6. PORT OF DEPARTURE	7. CUSTOMS ENTRY NO.
8. CONSIGNOR/SHIPPER (Name and Address)	9. PRESENT LOCATION
	10. COUNTRY AND LOCALITY WHERE GROWN
	11. NAME OF PREVIOUS U.S. PORT (In Transit Only)
	12. LT. NO.(In Transit Shipments Only)

13. DESCRIPTION OF PRODUCT

MARKS, BILL OF LADING, AND/OR CONTAINER NO.	QUANTITY AND NET WEIGHT	COMMODITY
14. SIGNATURE OF IMPORTER OR BROKER	15. FULL BUSINESS ADDRESS OF IMPORTER OR BROKER	
16. DATE SIGNED	TELEPHONE NUMBER (INCLUDE AREA CODE)	

TO BE COMPLETED BY PPQ OFFICAL

17. DISPOSITION OF PRODUCT	
18. SIGNATURE AND TITLE OF PPQ OFFICAL	19. DATE SIGNED

According to the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is 0579-0049. The time required to complete this information collection is estimated to average .08 hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information.

Instructions for completing PPQ Form 368
Notice of Arrival to import plants or plant products

Please TYPE or PRINT legibly.

1. Name of Carrier: List the name of carrier by identifying the airline with the flight number, ship name with the voyage number, truck and container number used to transport the agricultural product.
2. Date of Arrival: List the date on which the carrier arrives at the port on entry.
3. Name of Permittee/Consignee: List the name and street address of the person responsible for the importation. The applicant must be a United States resident. List the organization or company name, if applicable. A physical address of the facility or business is required. You may include a post office box address **in addition** to the street address for mailing purposes. List your daytime telephone number, including the Area Code. List your facsimile number, including the Area Code. List your email address if applicable.
4. Port of Arrival: List the port on which the carrier arrives.
5. Permit No.: List the USDA-APHIS-PPQ permit if the commodity requires a permit as a condition of entry.
6. Port of Departure: List the name of the port where the carrier originated in the country of origin.
7. Customs Entry No.: List the Customs and Border Protection entry number associated with this shipment.
8. Consignor/Shipper: List the name and street address of the person responsible for the shipping. List the organization or company name, if applicable. A physical address of the facility or business is required. You may include a post office box address **in addition** to the street address for mailing purposes. List your daytime telephone number, including the country code, facsimile number, including the Area Code. List the email address, if applicable.
9. Present Location: List the physical location where the commodity is to be inspected.
10. Country and Locality Where Grown: List Country, Province, State and Location where the commodities were grown.
11. Name of Previous U.S. Port: List If the commodity transited in any country prior to arrival to U.S. port.
12. I.T. No. (In transit shipment only): list the in-bond IT number this shipment is moving under.
13. Description of Product: List the following information in the space provided: Marks, Bill of Lading No., and/or Container No.; Quantity and Net Weight; and the Commodity arriving under this notice of arrival.
14. Signature of Importer or Broker: The person that is responsible for the accuracy of the responses submitted on this form.
15. Full Business Address of Importer or Broker: List the full business address and telephone number of the person whose signatory appears in Block 14.
16. Date Signed: List the date the form is completed and signed, using this format: dd/mm/yyyy.

If attachments are necessary, type or print "PPQ Form 368" along with the Company Name and address of the Importer or Broker, at the top of each page.

Send the completed original signed form to the [CBP Agriculture office](#) or [PPQ port office](#) where the shipment is arriving and making official entry. In the case of IT shipments, send the form to the port of arrival and port of entry.
